

Senate Special Committee on Investigation- PAQC Supplement

December 2nd, 2025

Prepared by: Ian Heap, Executive Director

Prosecuting Attorneys Qualifications Commission

## **Introduction**

The Georgia Senate Special Committee on Investigations subpoenaed Prosecuting Attorneys Qualifications Commission Executive Director Ian Heap to testify at the October 3, 2025, meeting. Several times during the testimony, Chairman Bill Cowser requested Heap submit additional information to him in writing for inclusion in the record and to take into account in drafting a final report of the committee. Chairman Cowser requested any recommended changes in the law concerning the qualifications commission, our underlying statutes that designate what is acceptable behavior by prosecutors or not, and any other recommended changes. Chairman Cowser specifically requested input on whether O.C.G.A. § 15-18-32 should be amended to add more specific bases for discipline to those seven enumerated in subsection (h) or clarify those already listed. Finally, Chairman Cowser specifically requested suggestions on how legislation might address confidentiality concerns. “[H]ow can we improve this law? And if confidentiality is a weak link, tell me how to fix it.”

## **Executive Summary**

No additional bases are recommended. The bases for discipline or removal of prosecuting attorneys are sufficient. The issue is not that O.C.G.A. § 15-18-32 fails to cover conduct, the issue is that the PAQC has limited ability to investigate and prove the conduct. There is no comprehensive remedy for the confidentiality issues, but changes to the statute already existing in SB 218 will relieve some concerns. The PAQC desperately needs investigative authority, and if SB 218 were stripped down to solely providing subpoena authority, it would still go a long way towards getting the PAQC operating effectively. Although physical security is a legitimate concern, those issues are controversial, and the PAQC is not willing to sacrifice the opportunity to get subpoena authority by insisting on any legislative support for our security.

There are currently additional changes to the existing law in SB 218 that are far less important than the above, but address current concerns with O.C.G.A. § 15-18-32. Those are removing a contradiction in the appeals process, clarifying travel reimbursement for commissioners who are state employees, correcting a misidentification, clarifying date jurisdiction, and harmonizing the Director/Executive Director job title. Finally, SB 216 moves the Director/Executive Director from ERS to JRS.

## **Clarifying Bases for Discipline**

After careful consideration, the bases for discipline or removal of prosecuting attorneys are sufficient. The issue is not that O.C.G.A. § 15-18-32 fails to cover conduct, the issue is that the PAQC has limited ability to investigate and prove the conduct. The PAQC is sometimes compared to the Judicial Qualifications Commission (JQC), and while there are many parallels there are significant differences. The most obvious difference is that the JQC does have subpoena authority. Another significant difference is that Judges generally personally preside in court on the record and issue rulings, orders, and opinions individually and on the record. District attorneys and solicitors general often have assistants handling cases in court, advocates handling victims and witnesses, and staff handling other aspects of the office. O.C.G.A. § 15-18-32 states that a district attorney or solicitor general is subject to discipline for the actions of an assistant district attorney or solicitor general only for "knowingly authorizing or permitting an assistant district attorney or assistant solicitor-general to commit any act constituting grounds for removal under paragraphs (1) through (6) of this subsection." Absent subpoenas, depositions, and/or search warrants, this "knowingly authorizing or permitting" could only be proven by voluntary whistleblowers who not only come forward on their own but remain committed throughout the process.

## **Confidentiality Concerns**

The most alarming threat to confidentiality is Complainants publicizing the fact they have filed a complaint and sometimes the actions and communications of the PAQC resulting from the complaint. A full analysis can be found at <https://paqcg.a.gov/confidentiality-notice/> but in essence the matter is intended to be confidential, but only the Investigative Panel and staff are under any authority. There is no legal bar to the complainant publicizing the information. There is no easy fix. Other entities have attempted to use contempt proceedings, often with limited success. The main difficulty with contempt in this context is that the PAQC is not operating under the authority of or in conjunction with any specific court. A secondary concern is the PAQC has no law enforcement or criminal prosecution authority, so a model such as Rule 6(e) of the Federal Rules of Criminal Procedure is unworkable.

Some of the issues the PAQC has with the current confidentiality provisions in O.C.G.A. § 15-18-32 are addressed in SB 218, amending subsection (k) starting on line 52 of SB 218 (Ex. A). One portion of this (on line 55) now seems like it will have unintended consequences, and we will be asking that "complainant or the" NOT be included in the final bill. Lines 62-68 are still needed and do not appear controversial.

The PAQC rules state that the Director shall notify the Complainant of a final disposition within 10 days. The O.C.G.A. § 15-18-32 currently states that all matters shall be confidential unless and until formal charges are filed, or a consent is filed in the Supreme Court. One or more complainants have publicized their dismissal notices. The PAQC is placed in the position of giving to the complainant what cannot be publicized with the knowledge that a percentage will be publicized.

Lines 62-63 (Ex. A) harmonize the law, the rules, and reality, allowing disclosure if:

“A complaint is dismissed at any stage; provided, however, that such disclosure shall be limited to disclosing the reason for such dismissal to the complainant.”

District Attorneys and Solicitors General have expressed a strong interest in knowing about complaints filed against them. In the event a full investigation is authorized by the Investigative Panel, the prosecuting attorney does receive full notification. If formal charges are filed, the matter becomes public. For cases dismissed without a full investigation, lines 64-68 (Ex. A) allow for the prosecutor, but not the public, to receive notice of the dismissed complaint, allowing disclosure if:

“A complaint is dismissed prior to an authorization of formal investigation; provided, however, that such disclosure shall be limited to disclosing the statutory basis for such complaint to the individual who was the subject of the complaint; and, provided, further, that such disclosure shall not include the complainant's identity or the specifics of the allegation.”

The O.C.G.A. § 15-18-32 already allows a prosecuting attorney to waive confidentiality and address the matter in the press at any stage. SB 218 as introduced added that a Complainant could also waive confidentiality. The reasoning was that despite admonitions not to, some complaints were publishing their complaint, or the fact that they had filed a complaint in the press or social media. The fact that there had been a complaint, and the insinuation that there was an ongoing investigation reflected negatively on the prosecuting attorney, who could not refute or clarify the allegations. The intent of adding that the Complainant could waive confidentiality was that the publication by the complainant would free the PAQC to address misstatements and allow proportionate publicization if and when the complaint were dismissed. An unintended consequence could be that their waiving confidentiality could be construed to opening the entire matter to open records requests. The PAQC is requesting that “complainant” be removed from line 55. The addition of lines 64-68 above combined

with the prosecuting attorneys' statutory ability to waive confidentiality should address the issue while minimizing unintended consequences.

### **Current Version of SB 218**

The current version of SB 218 (Exhibit A), has been returned to the Senate as amended by the House and is currently postured "agree/disagree".

### **Primary Issue- Investigative Power**

With great power comes great responsibility. The inverse is not always so. Although responsible for conducting investigations, the PAQC has no power to conduct these investigations beyond that of the average citizen.

### **Subpoena Authority**

SB 218 current version (Ex. A) Lines 123-149 provide authority to issue subpoenas for witnesses and documents. Without subpoena authority, the PAQC has no ability to gather evidence beyond what any citizen can gather and the PAQC cannot compel witnesses to appear for hearings. The accused prosecutor should have the right to compel witnesses for their defense in a contested hearing. It hampers the PAQC proving a case and hampers the responding prosecuting attorney from presenting a defense. Lack of subpoena authority is unfair to both sides. Subpoena authority remains in the current version of SB 218 (Ex. A) which has passed the House and could be passed as is by the Senate and sent to the Governor. The authorization of subpoena authority is clearly the most important provision in any legislation for the PAQC and would be the recommendation of the PAQC if SB 218 needed to be stripped down to a single issue, as was the removal of the Supreme Court rules review in 2024.

### **Search Warrant Authority**

The initial version of SB 218 as introduced (Ex. B Lines 138-152) included the ability to apply for search warrants for medical and banking records held by third parties, requiring a showing of probable cause to a superior court judge. The authority was to apply for warrants, not to issue warrants ourselves. The provision was drafted as being the least intrusive method to satisfy a compelling government need, narrowly tailored to only certain records and only from third parties. The authority to apply for search warrants was removed in the Senate, having been characterized as the PAQC wanting to serve search warrants on either the DA/SG themselves, or on their offices/homes. As this was removed prior to SB 218 passing the Senate, and as the PAQC has lost the

battle of perception, it is understandable if this provision is not included in a final version of SB 218. Even with subpoena authority, there will be no way absent patient's consent to get medical records, severely limiting any investigation into incapacity.

### **Deposition Authority**

On November 13, 2025, Senate Special Committee on Investigations meeting Ethics Commission Executive Secretary David Emadi testified that although his Commission has subpoena authority, that is insufficient to build the cases he needs to prove, especially when investigating collusion and coordination. Emadi suggested, and the Special Committee on Investigations seemed receptive to empowering the Ethics commission to place witnesses under oath for depositions prior to their probable cause administrative hearing. Deposition authority would be useful to the PAQC, especially in cases where the issue is whether the elected prosecutor knowingly authorized or permitted an assistant prosecutor to commit an act which would be a basis for discipline if committed by the elected prosecutor themselves.

### **Physical security**

The physical security of the PAQC employees, commissioners, and witnesses at their places of business and at public hearings or meetings has been a serious concern, especially given the current political climate. The concern had gone beyond speculative (see Exhibit C). The PAQC welcomes any assistance in this area, but it has proven controversial, and we are not willing to sacrifice the opportunity to get subpoena authority by insisting on any legislative support for our security.

### **Exemption from Firearm Carry Restrictions**

The trigger of objections to SB 218 in the House was "firearms in the courtroom." The Senate had passed a version which added the investigators, commissioners, and director, current and retired, from the firearms exemptions of O.C.G.A. §16-11-130. The House Judiciary Non-Civil amended this section to include all attorneys. The PAQC never intended to include all attorneys in the exemption. Numerous Sheriffs contacted their Representatives with strong objections to having all defense attorneys and civil attorneys able to carry firearms in county courtrooms. The House Rules Committee removed the entire section, then sent it back to the Senate. We are fine with asking the Senate to leave it out if that means we get subpoena authority, or would be fine with the original version, or a pared down version (only investigators, or "except jails and courthouses"), but again, we are not willing to sacrifice the opportunity to get subpoena authority by insisting on any legislative support for our security.

### **Limited Arrest Power**

We now understand the Sheriffs are opposed to any arrest power, no matter how carefully limited, so the PAQC is ready to ask that lines 95-122 be removed from the final bill.

### **Somewhat Controversial Provisions in the Current SB 218**

#### **Appeal Procedure and Venue**

The current appeals process is contradictory, and our original proposed language was changed several times. We accept the current added language, but it conflicts with the existing language, so we are asking that lines 79 and 80 be removed from the final bill. Appeals should be to the Superior Court of either the county the prosecuting attorney resides in or Fulton County, but not both or either.

#### **Date Jurisdiction**

Our commissioners have previously voted to not consider conduct that predates their adoption of our rules, and that is codified in (n), lines 81-85. This is a bit controversial, as the legislators seem to want the PAQC to have greater date jurisdiction, but the Commissioners are not going to exercise any jurisdiction they consider to be violative of due process (compare *ex post facto*) no matter what date the statute permits. SB 218 as introduced (Exhibit B) set the date at the date the Commissioners adopted the PAQC Rules (April 1, 2024). The was changed via friendly amendment back to 2023, and is now back to April 1, 2024, in the current version of SB 218 (Exhibit A)

### **Apparently Non-Controversial Provisions in Current SB 218**

Commissioner reimbursement language (lines 29-44) clarifies Commissioners who are State employees can be reimbursed for travel expenses either by PAQC or by their office, but not both. Line 48 cleans up a misidentification currently existing in O.C.G.A. §15-18-32, replacing Judge with district attorney or solicitor general. Lines 87-89 (q) is now redundant, as the FY 2026 appropriations bill has already moved the PAQC to the AOC for appropriations allocation and administrative support. Lines 90-91 (r) addresses that the Commissioners advertised for and hired an Executive Director, but the O.C.G.A. §15-18-32 names a Director.

The PAQC looks forward to working with this Committee to see if there is a viable version of SB 218 that grants subpoena authority, then see what the full Senate says about rewriting and, and then what the Representatives have to say about what the Senators settle on.

### **Current Version of SB 216**

SB 216 is the second piece of legislation pending concerning the PAQC. SB216 is a two-year fiscal bill that was sent for study between sessions and is now in the Senate Committee on Retirement.

As a recruitment mechanism for the PAQC, SB216 would move the Director position from ERS (employees Retirement System) into JRS (Judicial Retirement System). That would certainly benefit the current Director, but the focus of the bill is to get a more qualified person for the next Director. The ideal candidate for this position is a former elected District Attorney or Solicitor General, not an Assistant DA or Assistant SG. The Director should have the perspective and experience of having been in the position under investigation. The Director should be someone who has experience running an office and making policy decisions.

The two times this position as it currently exists (ERS) show none of those candidates are applying, and frankly few others are. If this were a JRS position an elected prosecutor who has served one or two terms and needs more years in JRS to vest would consider applying for this position, as would an elected prosecutor who had less than 24 years in JRS and could add creditable service. If advertised (and recruited for) in the future without this change, there is no reason to believe the applicant pool will be significantly different than four or five applicants, mostly current ADAs. The study is complete (Exhibit D), and states, “[t]his legislation should not have any fiscal impact on the Georgia Judicial Retirement System (JRS),” and “this bill would not result in an increase in the anticipated employer contribution rate for the ERS.”

The House Committee on Rules offers the following substitute to SB 218:

A BILL TO BE ENTITLED  
AN ACT

## SECTION 1.

16 Title 15 of the Official Code of Georgia Annotated, relating to courts, is amended in Article 1  
17 of Chapter 18, relating to general provisions relevant to prosecuting attorneys, by revising  
18 paragraph (4) of subsection (f), paragraph (1) of subsection (j), and subsections (k), (m), and  
19 (n), and by adding new subsections to Code Section 15-18-32, relating to the Prosecuting

25 panel meeting or hearing, plus either reimbursement for actual transportation costs  
26 while traveling by public transportation or the same mileage allowance for use of a  
27 personal motor vehicle in connection with such attendance as members of the General

50 or deferred discipline agreement, a report of such disposition shall be publicly filed in the  
51 Supreme Court."

52 "(k) Notwithstanding subsection (j) of this Code section, information regarding a  
53 disciplinary or incapacity matter of a district attorney or solicitor-general may be disclosed  
54 or the confidentiality of such information may be removed when:

55 (1) The privilege of confidentiality has been waived by the ~~complainant or the~~ individual  
56 who was the subject of the commission's investigation; or  
57 (2) The commission's rules provide for disclosure:

80        Court of Fulton County pursuant to Chapter 3 of Title 5.

81 (n) The commission shall commence by July 1, 2023, and the rules and regulations  
82 promulgated by such commission shall be established no later than October 1, 2023. No

90 (r) The individual selected to serve as director of the commission may be designated with  
91 the title of executive director by the commission."

## SECTION 2.

93 Said title is further amended by adding a new chapter to read as follows:

94

116 area.

117 (c) Nothing in this Code section shall be construed to:

118 (1) Confer the power of arrest for crimes that may be under investigation by the  
119 commission but which are not provided for in subsection (b) of this Code section; or

132 hearing, or other matter to be conducted in conjunction with such proceeding.

133 (d) A duly appointed officer or director of the commission may compel by subpoena the  
134 attendance of individuals at a proceeding before the commission, including investigative

139 (f) Subpoenas are enforceable as provided in Code Section 24-13-26.

140 (g) Subpoena fees and costs shall be the same as those provided for in proceedings in  
141 superior court.

142 (h) An individual who misuses a subpoena shall be subject to punishment for contempt of

149 procedures set forth in subsection (b) of Code Section 5-6-34."

20 1 of Chapter 18, relating to general provisions relevant to prosecuting attorneys, by revising  
21 paragraph (4) of subsection (f), paragraph (1) of subsection (j), and subsections (k), (m), and

**SUBJECT:**     Actuarial Investigation  
                 Senate Bill 216 (LC 56 0220)  
                 Employees' Retirement System of Georgia  
                 Georgia Judicial Retirement System

Dear Chairman Williams:

This bill would amend provisions relating to membership in the Georgia Judicial Retirement System (JRS). Specifically, this bill would authorize individuals employed as the director of the Prosecuting Attorneys Qualifications Commission to become members of the JRS. Currently, such persons participate in the Employees' Retirement System of Georgia (ERS). If this legislation is enacted, all persons hired into this position on or after July 1, 2026 will automatically become members of the JRS. This bill would authorize any person who is serving in this position on the effective date to transfer their membership from ERS to JRS, provided such election is made by June 30, 2027.

Under the provisions of this bill, the transferring member would be eligible to obtain creditable service in the JRS equal to the amount of service time earned under the ERS. The ERS would be required to transfer all employee and employer contributions, with interest, to the JRS. The transferring member would be required to pay any additional amount necessary to fund the full actuarial cost of the creditable service granted. Currently, there is only one active member of the ERS who is affected by this legislation.

This legislation would impact the Employees' Retirement System of Georgia (ERS) only if the current director of the Prosecuting Attorneys Qualifications Commission elects to transfer into the JRS. If such election is made, the ERS could realize an increase in the unfunded actuarial accrued liability because the System would lose the value of contributions made by or on behalf of the transferring member, the associated earnings, and future earning from these contributions. However, since this bill only affects one member of ERS, the impact is not enough to require an increase in the annual amortization of the unfunded actuarial accrued liability. Therefore, this bill would not result in an increase in the anticipated employer contribution rate for the ERS. The cost estimate is based on current member data, an estimated payroll of \$3,500,000,000, actuarial assumptions, and actuarial methods. Changes to any of these variables could affect the cost of this legislation. Any future costs would be paid through State appropriations.

This legislation should not have any fiscal impact on the Georgia Judicial Retirement System (JRS). The amount of creditable service earned by a transferring member will be determined by the value of the contributions transferred from the ERS, along with any additional amount paid by the transferring member. All persons who assume the position of director of the Prosecuting Attorneys Qualification Commission on or after July 1, 2026 would be subject to the provisions available to all new members of the System. This bill would not result in an increase in the unfunded actuarial accrued liability or cause an increase in the employer contribution rate. The cost estimate is based on current member data, an estimated payroll of \$75,000,000, actuarial assumptions, and actuarial methods. Changes to any of these variables could affect the cost of this legislation. Any future costs would be paid through State appropriations.

The following is a summary of the relevant findings included in the actuarial investigations for this bill. The investigations were completed pursuant to a request from the Senate Retirement Committee. The investigations were to be conducted according to O.C.G.A. §47-20-36, which outlines the factors to be considered in an actuarial investigation.

**SENATE BILL 216 (LC 56 0220)**

Dear Mr. Griffin:

As requested, we have made an actuarial investigation of the impact of Senate Bill 216 (LC 56 0220) on the Employees' Retirement System of Georgia (ERS) in accordance with the requirements of Code Section 47-20-36.

***Background***

This bill provides that on or after July 1, 2026, any individual employed as the director of the Prosecuting Attorneys Qualifications Commission shall become a member of the Judicial Retirement System of Georgia (JRS) but provides that any member employed as such prior to July 1, 2026 may either remain a member of ERS or elect to become a member of JRS. If such an election is made, the member must pay JRS any remaining amount necessary to cover the full actuarial cost of such transfer after ERS has transferred all employer and employee contributions with regular interest while a member of ERS. The service transferred from ERS to JRS would be for vesting purposes only.

***Cost Impacts***

This legislation would only impact ERS if the current director of the Prosecuting Attorneys Qualifications Commission elected to transfer his service from ERS to JRS. Our analysis indicates that such a transfer may be an attractive option to this member but ultimately would be a decision to be made by the member. If the director elects to continue as a member of ERS, then there would be no impact to ERS. The following analysis assumes that the member would elect to make the transfer to JRS.

The cost to ERS would stem from the loss of the employer and employee contributions related to this member and the loss of future investment earnings on these amounts. However, this would be partially offset by the elimination of any pension liability to ERS on behalf of this member.

The estimated increase in the unfunded actuarial accrued liability would be \$86,000. However, when the accrued liability contribution rate is calculated to include this amount, the result, when rounded, comes out to the same rate as the baseline. In other words, the change in the rate is less than one basis point. Therefore, the cost of this bill would be approximately \$0 in the first year.

Exhibit A shows the unfunded actuarial accrued liability and recommended employer contributions under the System before and after the proposed legislation. The recommended employer contribution rates are in conformity with the minimum funding standards specified by Code Section 47-20-10.

Mr. Greg Griffin  
September 25, 2025  
Page 2

The five-year impact of this bill for various actuarial metrics is shown on Exhibit B.

#### ***Actuarial Assumptions***

The cost estimates, if applicable, contained in this letter are based on the data, methods, assumptions, and provisions used in the June 30, 2024 actuarial valuation for ERS. There were no changes in any of the current actuarial assumptions for this actuarial impact letter. The increase in liabilities due to the legislation are amortized over a 20-year period. As can be seen in column (n) of Exhibit B, the funding policy for ERS calls for the employer contribution rate to not decrease by more than 2% from one fiscal year to the next fiscal year.

#### ***Disclosures and Caveats***

In order to prepare the results in this investigation, we have utilized actuarial models that were developed to measure liabilities and develop actuarial costs. These models include tools that we have produced and tested, along with commercially available valuation software that we have reviewed to confirm the appropriateness and accuracy of the output. In utilizing these models, we develop and use input parameters and assumptions about future contingent events along with recognized actuarial approaches to develop the needed results.

The comments and analysis contained in this letter are not intended to give exact calculations of costs. They should be considered to be estimates. The emerging costs will vary from those presented in this letter to the extent that actual experience differs from that projected by the actuarial assumptions. This cost analysis has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board (ASB) and the Code of Professional Conduct and Qualification Standards for Public Statement of Actuarial Opinion of the American Academy of Actuaries.

We have not explored any legal issues with respect to the proposed plan analysis. We are not attorneys and cannot give legal advice on such issues. We recognize that the proposed changes may be affected by federal law and strongly suggest that you review this proposal with counsel.

The undersigned are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

**SENATE BILL 216 (LC 56 0220)**

Dear Mr. Griffin:

As requested, we have made an actuarial investigation of the impact of Senate Bill 216 (LC 56 0220) on the Judicial Retirement System of Georgia (JRS) in accordance with the requirements of Code Section 47-20-36.

***Background***

This bill provides that on or after July 1, 2026, any individual employed as the director of the Prosecuting Attorneys Qualifications Commission shall become a member of JRS but provides that any member employed as such prior to July 1, 2026 may either remain a member of the Employees' Retirement System (ERS) or elect to become a member of JRS. If such an election is made, the member must pay JRS any remaining amount necessary to cover the full actuarial cost of such transfer after ERS has transferred all employer and employee contributions with regular interest while a member of ERS. The service transferred from ERS to JRS would be for vesting purposes only.

***Cost Impacts***

Since this legislation states that the member must pay to the Board of Trustees an amount sufficient to cover the full actuarial cost of granting such creditable service, we believe there is no cost impact to JRS.

***Actuarial Assumptions***

The cost estimates, if applicable, contained in this letter are based on the data, methods, assumptions, and provisions used in the June 30, 2024 actuarial valuation for JRS. There were no changes in any of the current actuarial assumptions for this actuarial impact letter.

***Disclosures and Caveats***

In order to prepare the results in this investigation, we have utilized actuarial models that were developed to measure liabilities and develop actuarial costs. These models include tools that we have produced and tested, along with commercially available valuation software that we have reviewed to confirm the appropriateness and accuracy of the output. In utilizing these models, we develop and use input parameters and assumptions about future contingent events along with recognized actuarial approaches to develop the needed results.

The comments and analysis contained in this letter are not intended to give exact calculations of costs. They should be considered to be estimates. The emerging costs will vary from those presented in this letter to the extent that actual experience differs from that projected by the actuarial assumptions. This cost analysis has been prepared in accordance with generally recognized and accepted actuarial principles and practices which are consistent with the principles prescribed by the Actuarial Standards Board (ASB) and the Code of Professional Conduct and Qualification Standards for Public Statement of Actuarial Opinion of the American Academy of Actuaries.

We have not explored any legal issues with respect to the proposed plan analysis. We are not attorneys and cannot give legal advice on such issues. We recognize that the proposed changes may be affected by federal law and strongly suggest that you review this proposal with counsel.

The undersigned are members of the American Academy of Actuaries and meet the Qualification Standards of the American Academy of Actuaries to render the actuarial opinion contained herein.

Respectfully submitted,
